

**LICENSE AGREEMENT
FOR NON-COMMERCIAL RESEARCH USE OF
WILD SELFIE DATASET (WSD)**

Introduction

The Wild Selfie Dataset (WSD) contains the selfie images captured from the cameras of different smart phones, unlike existing datasets where most of the images are captured in controlled environment. The WSD dataset contains 45,424 images from 42 individuals (i.e., 24 female and 18 male subjects), which are divided into 40,862 training and 4,562 test images. The average number of images per subject is 1,082 with minimum and maximum number of images for any subject are 518 and 2,634, respectively. The proposed dataset consists of several challenges, including but not limited to augmented reality filtering, mirrored images, occlusion, illumination, scale, expressions, view-point, aspect ratio, blur, partial faces, rotation, and alignment.

Consent

The researcher(s) agrees to the following conditions on the Wild Selfie Dataset (WSD):

1. The researcher(s) shall have no rights with respect to the Dataset or any portion thereof and shall not use the Dataset except as expressly set forth in this Agreement.
2. Subject to the terms and conditions of this agreement, the WSD dataset is available for non-commercial research use only, a royalty-free, nonexclusive, non-transferable, license subject to the following conditions:
 - 2.1 The Dataset is only for the non-commercial research use and available to those direct research colleagues who belong to the same research institution and have adhered to the terms of this license.
 - 2.2 The Dataset will not be copied nor distributed in any form other than for backup.
 - 2.3 The Dataset will only be used for research purposes and will not be used nor included in commercial applications in any form.
 - 2.4 The images of the dataset should not be used in any such form which can made the subject feel embarrassed.
 - 2.5 Any work made public, whatever the form, based directly or indirectly on any part of the Dataset will include the following reference:

L. Kumarapu, S. R. Dubey, S. Mukherjee, P. Mohan, S. P. Vinnakoti, and S. Karthikeya, "WSD: Wild Selfie Dataset for Face Recognition in Selfie Images", arXiv preprint arXiv:2302.07245, 2023.

I hereby accept to adhere by the terms and conditions of this license agreement.
